

## HEAVY DUTY 20-25 ltr PUMP

Hand operated pump with 1.5 mtr of clear hose complete with 90° nozzle and on/off tap.  
A unique piston design allows the pump to discharge on the down stroke making pumping of heavy oils possible.  
Telescopically adjustable to fit drums between 370 to 500 mm high.  
Discharges 100 ml on each down stroke.  
An ideal dispensing pump for most engineering applications.  
2" BSP adaptor to screw into female drum closures.

Code **F960-JAA**

Adaptors to fit this pump:

- 21 multi-neck adaptor to fit any obscure male threaded closures
- 22 Trisure to fit 51mm female plastic drums closures
- 23 US Buttress adapter to fit 58mm female plastic drums closures
